Hi Colleagues,

We are again planning on a 30-minute newscast with students in the capstone NewsVision class. My class is the only section this semester. The program will be recorded "as live" on Wed Dec 1 at WHUT TV. (We don't yet have the playback date.) With the Thanksgiving holiday, this leaves just two weeks to produce/prepare and execute an entire newscast.

The good news is the students were able to shoot day-of stories and produce a 17-minute "as live" newscast themselves on Election Day, so I know they will be able to pull it together. However, we will begin working on this as a class this week.

Faculty Assistance

Show Elements

We can use help with reviewing reporter scripts, graphic elements and video for the show. We will not have any of these elements until later this week, once we get a rundown.

If you can assist with this, please let me know

Special Segment

We also may have a special segment to be recorded before or during the newscast. If you are interested in helping with this, please let me know.

Day of Recording

We are having both the taping and recording on Dec 1. I'm hoping to have lunch for the students in between and possibly a wrap party after. We'll need help with the setup/break-down for this in the NewsVisino studio. If you are willing/available to assist please let me know.

Nov 30: Is our last day of class and the students must present their ePortfolios and resume reels. I would love to have you in class to serve as reviewers if you are available.

I'm excited to discuss how to move forward next semester with the new crop of capstone journalists; but for now, we have to be in "get er done" mode and have another great newscast which will benefit the students as they move forward into their careers.

I'll be sure to let everyone know about upcoming meetings.. need to get through tomorrow with the students and will go from there. Pls see me today if you think of anything. Office hours from 1:30pm - 5pm.

All Best,
Jennifer
