to me

Hi Professor Thomas-

I first need to apologize for this belated note. Since I returned from AAJA, I have been so busy completing my summer internship and starting fall classes -- but it's no excuse.

I just wanted to properly express my appreciation to you for leading the broadcast program and teaching me skills I couldn't have learned anywhere else. Working to produce content for the newscast was an amazing experience -- and I thank you for believing in me to shoot and produce packages independently, and anchor the newscast. The chance to work at WJLA's studios was an experience I will never forget.

I really admire your personality and drive, and I came back to Wayne State telling everyone about this amazing Howard U professor I met! I hope to someday have the same energy --

Can't thank you enough ---

Charlie
