Hey Ladies!

Hope all is well, it's been so long!

Many times when I think of my career success, I reflect back to guidance i received from you both.

I come bearing great news--

When I moved from Hearst to News 12 New Jersey, I came on as a freelance Associate Producer. That same day I was brought on board as a salaried AP.

And now just five short months of witting scripts and filling in as a Line Producer, I have been promoted to a WEEKEND MORNING PRODUCER with my very own shows to do with as i see fit!

It's all very exciting as I though this opportunity wouldn't arrive for several more years.

My news director says this is the fastest he has seen anyone moved up in his time at News 12 (Which is going on 20 years)

I really do love and have a knack for producing and putting together shows. And I attribute those qualities to the both of you.

I'm planning a trip to D.C., soon and would love to see you.

Thanks for everything!

Best,

Precious Osagie-Erese
